Advising Notes

1. CR/NC grading is not permitted in the geography major.
2. Of the required General Education units, 6 units will be satisfied by the following courses in Elective in Planning: ECON 40/50 in G.E. D3, GEOG 25 in G.E. A3, BIOL 10 in G.E. B2; EES 4 in G.E. B1; SOC 163 in G.E. ID
3. General Education class can be used to double count in major and GE
4. Students must regularly consult with their academic adviser. Such consultation will facilitate course selection and enable the student to develop a program consistent with individual interests and needs.
5. The selection of electives within the major should be strongly influenced by career goals, interests in graduate study, and related matters. Whether one's interest focuses on environmental protection, planning, cartography, GIS, locational analysis, or any one of a wide array of geographic competencies, the department can provide current applicable information. Inquiries are welcomed.
